

OARRS Enhancements for Law Enforcement

April 2018

Enhanced Law Enforcement Request Approval Workflow

The OARRS system will be making several enhancements starting on **April 11th**.

One such enhancement allows any law enforcement supervisor to approve their delegates' requests, including requests for Patient Reports as well as prescriber and pharmacy reports. In addition, supervisors will receive email notification for pending requests. Once approved, the supervisor can download and view those requests.

Additional information about this OARRS enhancement, including instructions, can be found by visiting: www.pharmacy.ohio.gov/OARRSEnhancements.
