

Mandatory Use Compliance Update

Updated 7-12-2018

Starting on July 12, 2018, OARRS prescriber users will have access to an additional tool in their OARRS dashboard.

Now prescribers will be able to regularly generate their mandatory use compliance reports in OARRS. This tool will allow for prescribers to generate monthly compliance reports for patients that were prescribed an opioid or a benzodiazepene for more than a seven days' supply and automatically view which patients were not queried by you or your delegate.

To access, click Menu and select MyRx. Select My Mandatory Use Compliance tab. Monthly compliance reports will include when the report was compiled and what dates are reflected in the report.

The Board has published a pocket card for both prescribers and pharmacists on when to check OARRS.

This can be accessed by visiting, www.pharmacy.ohio.gov/pocketcard.

Process for Accessing Mandatory Use Compliance Reports

click **Menu**
select **My Rx**

- Menu
 - Home
 - Dashboard
 - PMP Announcements
 - RxSearch
 - Patient Request
 - Bulk Patient Search
 - Requests History
 - MyRx
 - Prescriber Report

RxSearch > MyRx > My Mandatory Use Compliance
